### Product Description

**Revolax Rejeunes Neuramis Crosslink Hyaluronic Acid Dermal Filler 1ml**

#### What is hyaluronic acid dermal filler?

Injectable hyaluronic acid (HA) is a type of temporary dermal filler. Hyaluronic acid is found naturally through out the body, with the highest concentrations in the joints, eyes, and skin. In the skin hyaluronic acid attracts water, which allows the skin to become more hydrated. As we age, the fat, muscles, bone, and skin in our face begins to thin. This loss of volume leads to either a sunken or sagging appearance of the face, fine lines, wrinkles, folds, and thin lips. Injectable HA is used to reduce the appearance of fine lines and wrinkles, facial folds, and to create

Our Product

structure, framework, and volume to the face and lips. The effects of injectable hyaluronic acid are seen immediately.

Product Name	Deimalax Revolax Rejeunesse Premum3 Neuramis Yvoires
Grade	Fine line / Derm / Deep / Ultra-deep

Type	1ml / 1.1ml / 2ml / 3ml / 5ml / 10ml / 20ml
Featura	Firming, Anti-wrinkle
Ingredient	Hyaluronic Acid
Single Gross Weight	0.5kg
Use	Body / Face / Lips / Nose / Bottucks / Breast
Certification	CE

**Dermal fillers have been used for:**

- Wrinkles
- Nasolabial folds
- Marionette lines
- Pre-jowl sulcus
- Lips
- Fine lines around the mouth
- Under the eyes
- Cheek augmentation
- Earlobes
- Volume loss on the back of hands

**Benefits of Hyaluronic Acid Fillers**

- Stimulates collagen production
- Adds volume
- Smooths texture
- Decreases the appearance of fine lines and wrinkles
- HA exists naturally in the body
- Lasts up to a year<sup>4</sup>

"Hyaluronic acid fillers add volume and decrease wrinkles all in one visit, with results that typically last six months to a year," Henry says. "HA fillers can stimulate collagen production, which leads to fresher-looking skin, and can be used for preventative reasons, to combat volume loss and fine lines earlier on in the aging process."

**How Long Do the Results Last?**

How long the effects of dermal fillers will last depends on the product, the area of treatment, and the patient. Generally speaking, the denser the product is and the more deeply it is injected, the longer it will last. Hyaluronic acid fillers tend to be the most temporary option, and therefore are often recommended for first-time filler patients. These will typically last from 6 to 18 months.

**Compared**

**Fine**  
Thin superficial lines, such as worry lines, periorbital lines, perioral lines and etc.

**Deep**  
Moderate wrinkles, such as glabellar, oral commissures, Lips fullness and vermillion border.

**Derm**  
Moderate wrinkles, such as glabellar, oral commissures, Lips fullness and vermillion border.

**Ultra-deep**  
Enlargement of breast/buttock augmentation
